Child Life Donor Information

CHILD LIFE DONOR INFORMATION

Every leading academic health sciences system builds and sustains excellence with the commitment of generous benefactors. Each gift to UMass Medical School and UMass Memorial Children's Medical Center brings us closer to our goal of improving the health and well-being of all, and provides hope for future generations. Together with your partnership, we can shape the future of medicine, transform lives — and make history.

Thank you for your interest in helping to make a difference at UMass Memorial Children's Medical Center! To ensure that all donated items are safe and promote positive experiences for the children and families we serve, please use the following guidelines to ensure your donation meets the needs of our hospital.

Please contact Child Life prior to bringing your donation to the hospital so that we can arrange to have someone meet you. Due to HIPPA compliance and infection control, we are unable to allow donors into the pediatric units.

The Child Life Program is in need of items for all age groups, both in English and Spanish languages. All donated items are used in playrooms, waiting areas, and with individual patients to help them cope and continue learning and growing during their medical treatments.

HOW TO MAKE A DONATION

- Contact Child Life to arrange a date and time to bring your donation to the Sherman Receiving area at UMass Memorial Children's Medical center located at 55 Lake Avenue N., Worcester, MA. (See page 4)
- Complete the enclosed gift-in-kind form and bring it with you on the date you drop off your donation.

If you have changes to the arranged date/time of your donation, please call 774-441-7607. Please note, all items must be new and unwrapped.
